

The logo for Sagehill Business Solutions is located in the top right corner. It features the word "Sagehill" in a large, white, sans-serif font, with "Business Solutions" in a smaller, yellow, sans-serif font directly below it. The text is set against a dark blue, rounded rectangular background.

Sagehill

Business Solutions

Technology Simplified

The background of the entire page is a photograph of a modern office workspace. In the foreground, a white desk is visible with two adjustable desk lamps on the left side. A black office chair is positioned in front of the desk. On the desk, there is a small brown mug with an eye design, a pen, and some papers. In the background, a large window offers a view of a city street with buildings and trees. The overall lighting is bright and professional.

SAGEHILL BUSINESS SOLUTIONS

# COMPANY PROFILE

# THIS IS WHO WE ARE

---

We are a software consulting firm and an enabler of 4IR (the 4th Industrial Revolution) focusing on the delivery of innovative business process automation solutions that speak to your business.

With domain expertise in various industry verticals such as Private, Public and Non Governmental Organisations, Sagehill is premised on driving digital transformation through business process automation.

## π ○ CORE VALUES ○ π

PASSION • EXCELLENCE • INNOVATION  
CREATIVITY • INTEGRITY • COMMITMENT

## VISION

To provide the business community with timely cost effective and high quality technology products and services thereby maximizing wealth for shareholders and other key stakeholders.

## MISSION

To assist individuals and organisations throughout the world gain competitive advantage through the provision of innovative and simplified business solutions that improve their profitability.

# AND THIS IS **WHAT WE DO**

---

## **01 ERP IMPLEMENTATION & SERVICES**

### **PALLADIUM ACCOUNTING**

Sagehill is a certified gold partner for Palladium Accounting. We deploy, set-up, implement, train and offer support for all Palladium Accounting Software products. Palladium Accounting is an affordable software that offers a range of feature-rich Accounting Solutions to suit small to medium sized organisations. Palladium features are developed under three core business success values of increasing turnover, optimising margins and improving operational efficiency.

### **MICROSOFT DYNAMICS 365**

As a Microsoft Partner, Sagehill offers implementation services for Microsoft D365. This solution combines CRM and ERP capabilities by delivering new purpose-built applications that work together seamlessly to help manage specific business functions. Dynamics 365 applications cover the breadth of your organisations including sales, marketing, finance, commerce, supply chain.

# SAP SUPPORT SERVICES

We are an extended SAP Partner of Consnet South Africa, offering support services across all SAP modules. We work with qualified and certified functional and technical consultants with extensive industry experience in Zimbabwe and the wider Africa region.

## 02 I-VEND RETAIL P.O.S

i-Vend Retail is an omnichannel retail management solution that helps businesses manage various aspects of a retail shop and e-commerce store. It covers Point Of Sale (P.O.S), back office as well as head office operations. i-Vend Retail is a game changer with various solutions like mobile P.O.S, loosely known as the walking till as it allows employees to access inventory and pricing information using mobile devices. The scalable nature of i-Vend retail enables retailers to grow their operations making it easy to effortlessly expand their footprint.

## **03** TRAINING

### **IBM Training**

Through our partnership with Cyber Retaliator Solutions (CRS) South Africa, we offer Authorised IBM training throughout SADC and most of English-speaking Africa. Courses can be tailored to your personal or organisational goals and objectives with certification training or roadmaps

## **04** INTEGRATION AND SOFTWARE DEVELOPMENT

We develop innovative softwares that deliver distinctive advantages such as easier reach and convenience to our customers and target market. Development includes, but is not limited to: Mobile Applications Development, Management Information Systems as well as Websites. As pioneers of the 4IR we specialise in custom and cross-platform mobile app development. In addition to creating software we also help our clients with analytics, go-to market strategy, world-class support, and hosting.

# AND HERE'S **HOW WE WORK**

---

Teamwork is at the core of our operations and our team of experts streamlines processes using industry standard and “out of the box” creative thinking processes so as to enhance flexibility, capacity, and efficiency.

The use of project management tools and techniques ensures every project is delivered on time and with quality. Projects are broken down using the waterfall and agile methods to design and map out the solution.
